Intuitive Development Training & Consultations

"A session with Danille is like going to a Spiritual Spa!"

- B. Hughes, Data Manager

Intuitive Energy Medicine

Goes beyond traditional meditation or Mindfulness practices

Join me on Facebook for Intuitive, Health & Wellness Tips

Medicine that focuses on your Energy and Spirit . . .

Intuitive Energy Medicine is an integrative approach, concerned with bringing the mind, body, and spirit into alignment in order to preserve one's health and prosperity.

Consultations

Intuitive Energy Medicine Consultations consist of balancing your energy fields and extensive energy circuits located within and around your physical anatomy. By balancing your healing energies, Danille assists you in the process of receiving answers to solve problems, which in turn accelerates your personal growth.

Each session is approximately one hour, with the last 15 minutes designated for client's questions. Sessions are available via Internet or phone, by appointment!

Private sessions, tutorials, and workshops are available for individuals, couples, groups and special events.

Active Meditation Courses™

Are designed to heal and maintain one's own energy space and provide the confidence to create lifestyle changes for optimal health and wellness, while at the same time; elevating creativity and developing intuition.

Clear Seeing Academy™

This intensive 10 month, certification program is designed to prepare students to be Intuitive Energy Consultants. Many of Danille's students have taken the advanced training to enhance their own careers and further self-development.

Graduate Seminars

Graduate seminars are designed for advanced students who have successfully completed both the Active Meditation Series™ and the Clear Seeing Academy™. Seminars are research-based in the area of Intuition Energy Medicine. They are scheduled throughout the year and include guest speakers.
